INTEGRATED FORMING

热压一体化盆

Minimalist design, beauty that is not defined by time

In addition to superior performance, artificial stones can also be mixed into different colors, and the plasticity of the artificial stone integrated basin is extremely strong. Artificial stones will soften and bend when heated (over 200 °C), and then solidify after cooling. Therefore, the artificial stone integrated basin has natural advantages in design.

极简设计，不被时间 定义的美

除了性能优越，人造石还可以调配成不同的颜色。人造石一体盆的可塑性极强。人造石经过加热（超过200°C）会软化变弯曲，冷却后定型。因此，人造石一体盆在造型设计上拥有天然优势。
