Recently, we applied this method to  
Sanitary environment, product development  
And those that are both durable and  
Beautiful. Year after year, our  
Repertory, design new products in-house or  
Working with designers we love as much as we do.

In addition to this practical aspect, we also  
Focus on aesthetics and the idea of realization  
The "overall look" includes walls, floors, bathtubs,  
Washbasins, shower pans, even accessories.  
The result is a transcendent bathroom  
It's just functional. It becomes  
It's a beautiful space in its own right.

We have always had clear direction of our customers' favor. First of all, we strive to eliminate customers' blind spots for bathtubs. When the customer make the selection, we will coordinate with customers for the style and characteristics of the bathtub that they request. Our solution is to select the bathtub matching the entire bathroom style, that is most suitable for the customer to satisfy customers.

A special coating with metal powder, a technologically advanced process that allows the deposition of real metal microparticles on the surface.

A process that allows to make the finish homogeneous, covering every little detail.

A technology that gives a resistant and refined armor to the elements made of Flumood.

The result is a delicate and apparently casual pattern, an explicit reference to the textile world from which the project takes its origin, a surface that seems to move lightly thanks to the variation of light and shadow determined by the relief effect. A three-dimensional shape embellished in this version by the intentional irregularity of the grooves that refers to the idea of an artisanal production made of unique and unrepeatable pieces.

The MonBlari project developed a new implementation technique. The "sculpture" started with the idea of an acrylic bathtub with a "soft" effect "Acrylic", compressed; An almost surreal object. The tub is made of acrylic and it is an elegant monomer, a freestanding one Artwork that can be combined with shower space.
